## Summary

I am passionate about utilizing my skills to uncover valuable insights from complex data sets. I am fascinated by the process of transforming raw data into meaningful information that can be used to solve business problems and answer critical questions. With a detective-like approach, I enjoy the challenge of manipulating, cleaning, and analyzing data to make it more accessible and user-friendly through the creation of intuitive dashboards. My goal is to utilize my analytical skills to provide actionable insights that help organizations make informed decisions and achieve their objectives.
